EVOline® interlinking concepts – Kitchen

Our cabling concepts show how different kitchen areas can be supplied with power and data simply and flexibly. They connect multiple connection points in a well-designed solution, ideally using just one central power supply line.

An overview of the solutions:

Power supply for worktop surfaces 3
BackFlip – *Kitchen islands · Base cabinets with drawers*

Power supply on and beside the worktop 4
Port and One – *Kitchen islands · Base cabinets with doors*

Power supply for worktop surfaces with wireless charging 5
One with One DisQ – *Kitchen islands · Work surfaces*

Power supply for vertical surfaces with magnetic phone charging 6
One and WallDisQ – *Vertical work surfaces*

Power supply for a kitchen run 7
V-Dock, BackFlip, Wing, PowerOrganiser and One with One DisQ
