

CERTIFICATE OF CORPORATE CARBON FOOTPRINT

Company

Schulte Elektrotechnik GmbH & Co. KG

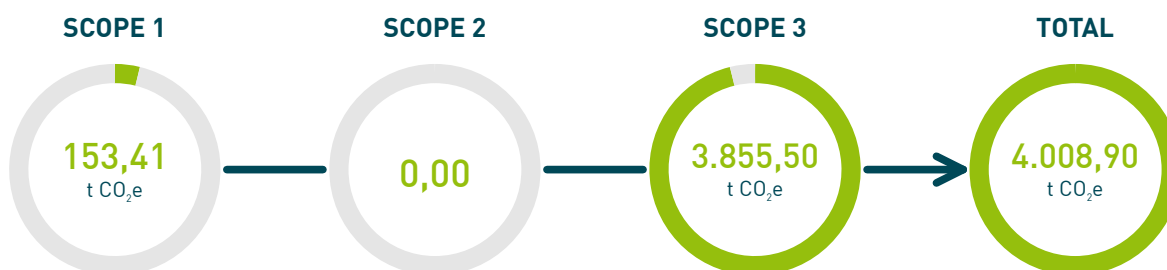

Title of Balance

Overall balance - CO2 2024

Accounting period: 01.01.2024 bis 31.12.2024

Accounting subject: In the CCF balance sheet of Schulte Elektrotechnik GmbH, all three scopes were considered. We prepare our balance sheet according to the GHG (Green House Gas) Protocol. We mainly focus on the amount of materials and energy consumed for operations, which is why Scope 1, 2, and 3 are taken into account. An important aspect was setting specific system boundaries. In our balance sheet, we analyze the entire Journey of our raw materials (cradle to gate). It should be noted that PC was classified into the PET group as there was no classification available. Due to the points mentioned above and the number of decimal places allowed by the program, a safety margin of 5% was calculated.

Emissions & Description of the Balance Room

Balance standard: This certificate is to be understood as a self-declaration of the company. Depending on the self-selected system limit, the balance represents the sum of all direct and indirect greenhouse gas emissions of a company/site/process/product, expressed in CO2 equivalents (CO2e). The balance sheet is drawn up in accordance with the requirements for the quantitative determination and reporting of greenhouse gas emissions in accordance with the self-selected regulation or standard.
