

EVoline[®] Consolidation Point

EVoline® Consolidation Point

The pivotal point of the system.

The modern work life becomes more and more flexible. Nowadays adaptable spaces along with mobile furniture and equipment within individually created work areas are standard in many offices already.

A conventional approach usually reaches its limits because of the services infrastructure.

The essential importance of a flexible power supply is often un-

derestimated during the planning stages. Long-term consequences can often result in cable chaos with potentially fatal safety defects, questionable auxiliary structures or expensive new cable supplies.

The perfect solution: Decentralised Electrical Distribution from Schulte Elektrotechnik.
